

Eventually we'll have colorful "labels" for the outside of the ring dial. Cut to the edge of the paper on one end for a glue strip.

Perforated ring sundial. Hang in sunshine so that spot of light inside falls on today's date. Read time.

This circle is a pattern to find the center of the top of the cylinder dial i.e., the bottom of the soup can.

The gray border should come out at least somewhere close to centered on this page. If it's very far off it may be your printer settings.
